To whom it may concern...

Namaste,

We would like to take an opportunity to introduce our non-profit organisation to you.

Since 1997, we are working in Nepal on structural improvements for disadvantaged groups, women, children, disabled, low castes and the poorest in general. We target exemplarily projects to stimulate and above all give a boost to develop themselves. Since the 'Nepalquake' in 2015, we performed many reconstruction efforts, but our other and new plans are numerous as well.

*Such as: our yearly **Free Medical Camp** by our **Bsure-team** with international volunteer doctors and dentist, making a soap making workshop for **mentally disabled**, building and sustaining **schools and medical posts, drinking water-projects, installing computer-classes, making footbridges, providing solar power** and so on...*

*Our **Study Fund** for advanced learning by our students is financed this way and our **Emergency Fund** helps other urgent medical help for the poorest, such as hospitalization, transplantations and the like...*

You can help to realize this by means of a one-time gift, a monthly sponsoring of our schoolchildren or a donation from a benefit organised by you, family, colleagues, your school or association

*Our general management **costs** were barely 2.39% in 2019, us being **volunteers**, we are proud of that. Your donation is very welcome to make a difference together. As together, we create "**Ripples in an ocean of mountains**".*

*With kind regards and thanks in advance from **Paul Vande Moortel**, chairman; **Nita Buduja Pun**, secretary, **Nar Kumari Buduja** and the volunteer **Bsure-team** led by **Doctor. Jan Dryhoel**.*
